# *PBRT*—Lead the way in breakthrough cancer therapy.

Offering PBRT will place you at the forefront of cancer therapy. But, raising the capital to fund a multi-million dollar investment is an intimidating task. Now, American Shared Hospital Services can help. **We can help you lead the way in proton beam radiation therapy.**

**Our Vision** To advance the quality of healthcare by providing a full range of radiation therapy solutions for our clinical partners – from diagnostic imaging , to treatment simulation and planning, to treatment delivery. Today, we are making this vision an enhanced reality by offering Proton Beam Technology–what we believe will be the next major advance in radiation oncology.

## Be among the first to offer PBRT services.

A partnership with American Shared will provide you with the capital to obtain this leading technology now.

## Let American Shared be your PBRT strategic partner.

American Shared has been a leader in providing innovative financing for over 25 years. Now, we're applying our revenue-sharing and turn-key financing programs to PBRT. Under this concept, American Shared provides project financing for the hospital and the hospital pays only when the service is provided.

An American Shared partnership will bring you these unmatched benefits:

### **No-Risk Financing**

Through our creative financing program, you may obtain PBRT technology with a minimal investment. You set the level of your capital investment with no minimum volume requirements.

### **State-of-the-Art Equipment**

We research the full range of technology available from various manufacturers, enabling you to choose the right equipment for your facility.

### **Feasibility Analysis**

A feasibility analysis is prepared to maximize success of the project, whether it is a single or multiple treatment room system.

### **Comprehensive Marketing Plan**

We work with you to develop and execute a customized marketing strategy.

To find out how American Shared can help you develop your PBRT program, call CEO Ernest A. Bates, M.D. at 415-788-5300.
